ANNOUNCEMENTS

Climate Change Conference: Making the connections

The Cornell Center for a Sustainable Future and the College of Agriculture and Life Sciences are organizing a half-day mini-conference on climate change for **May 6th from 8:30-noon** in Call Auditorium, Kennedy Hall for faculty and staff. The invitation is being extended to several colleges at Cornell.

The intent of the mini-conference is to help build bridges across disciplines and departments, to let faculty and staff know what each other are doing and to create the possibility for more collaboration, a necessary step to give Cornell a higher profile in this important area with policy-makers, the public, and potential funding agencies. The conference will consist of a panel discussion covering assessment, adaptation, mitigation, communication and policy and other relevant topics followed by breakout sessions for faculty to provide input and brainstorm around identified topic areas for potential collaboration.

If interested, please mark your calendars. More details will follow soon regarding panel participants and breakout themes.
