

#### **Basin Report Card Initiative**

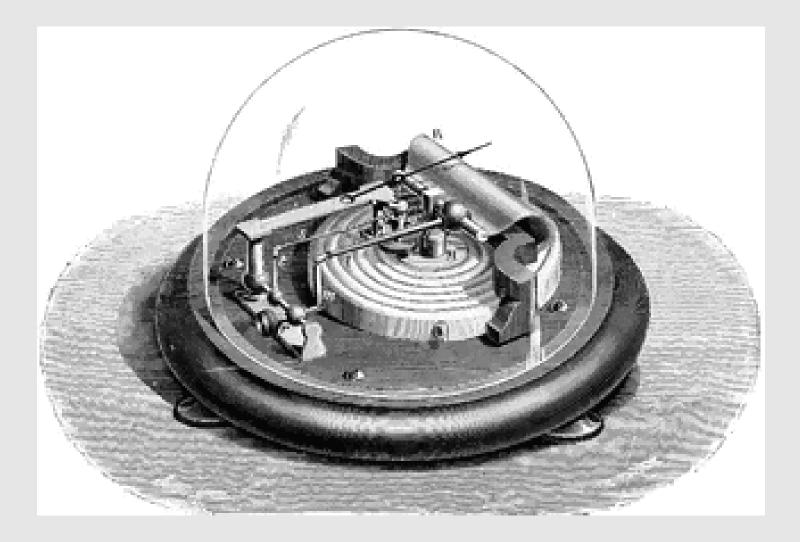

Sarah Freeman, WWF GEF IWC8 Sri Lanka May 10, 2016 We need credible information that drives change at a basin level.

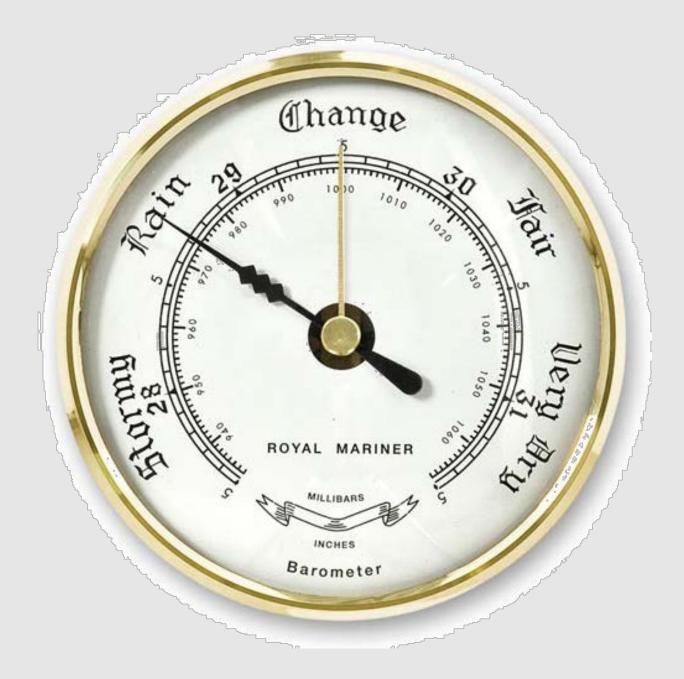

## Information vs. decision-making

Decision-making quality

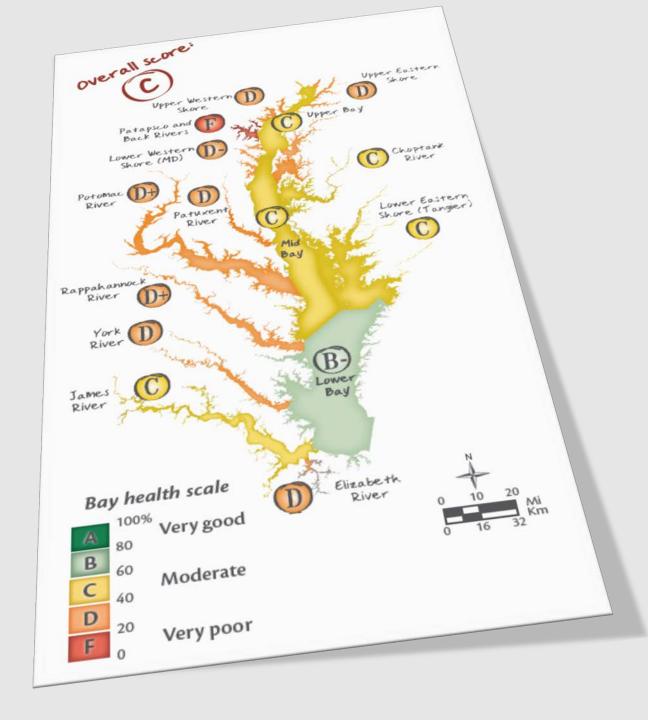

us nibh, venenatis mollis ou am. Integer vitae scelerisque tortor, eget is Jiam, guis ornare metus porta sed. Nunc eleifend rhc Imper auctor. Amount of information

"Good News – Based on my years in the environmental movement, I think the Agency does an exemplary job of protecting the Nation's public health and quality of the environment. Bad News-I can't prove it"

Increase public awareness and education on issues

Increased political understanding of issues

Changes in resource allocation

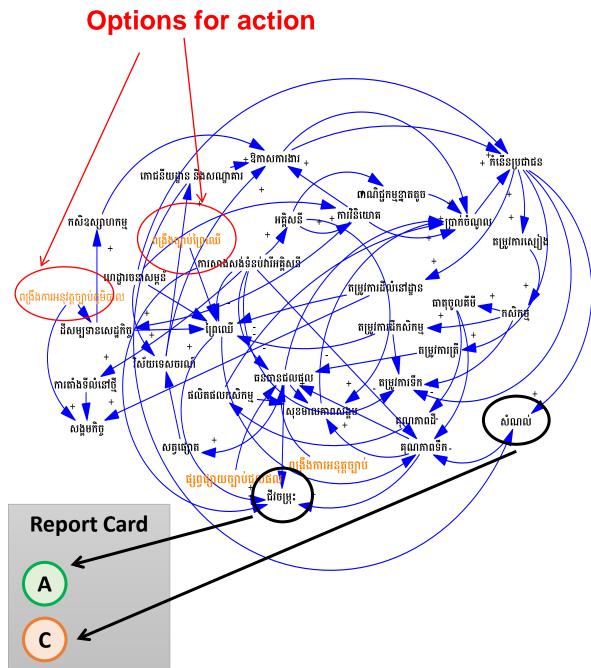

Increase demand and production of information

**Changed behavior** 

Improved basin health

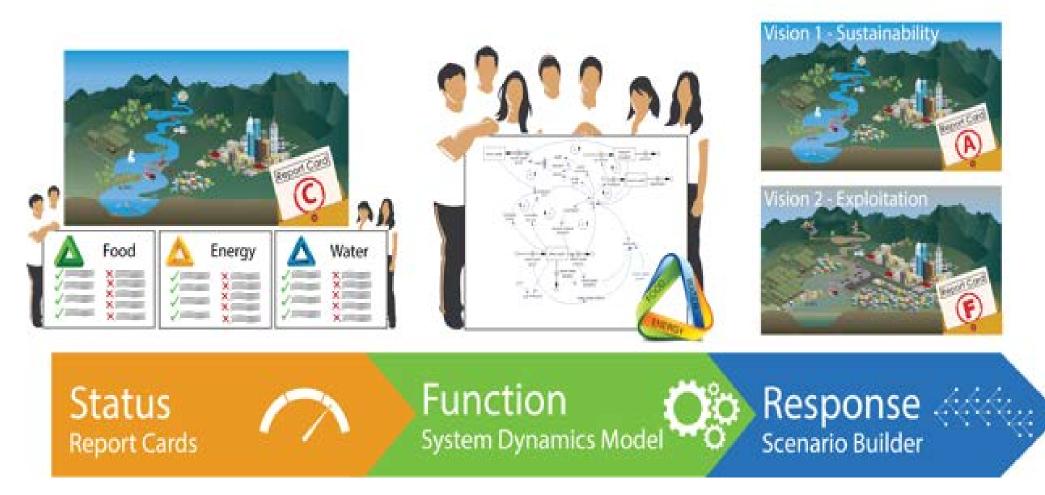

### Integrated Planning for Sustainability Food-Energy-Water Nexus
