ANNOUNCEMENTS

Applications for 2007 Teresa Heinz Scholars for Environmental Research program now available

The Heinz Family Foundation has announced that applications for the 2007 Teresa Heinz Scholars for Environmental Research program are now available. The program seeks to enrich the public's understanding of emerging environmental issues. Its goal is to provide effective solutions for environmental problems. Specifically, the program provides enhancement support for doctoral dissertation and master's thesis (or project) research. A total of 16 one-time, one-year awards are offered annually. Historically, Cornell students have been highly successful in winning these yearly awards. The Center for the Environment assists the Heinz Family Foundation with proposal evaluations after they have been directly submitted to the Foundation. Read more on the CfE website. Application available on the Family Foundation website.
