

Workshop orientation

Workshop Objectives

- To facilitate structured learning, knowledge-sharing and exchange of practical experience among GEF IW projects in Africa
- To address priority (TWRM) issues and challenges in the different regions of Africa
- To examine potential for linkages between TWRM in catchment basins and coastal zones

Expected outputs

1. A system of networking and structured learning developed and agreed to be implemented by participants
2. Identification of next steps to promote sharing of information on planned activities and events

Workshop Methodology

1. Presentations by Resource Persons
2. Individual studies (documents and websites)
3. Informal discussions and consultations
4. Buzz Group sessions
5. Group work discussions
6. Facilitated plenary discussions
7. Field trip
8. Evaluations

Workshop Agenda

1. Key Notes to **clarify principles** on TWRM in Africa
2. Discussion on how to enhance **structured learning**
3. **African experiences**: Presentations and field trip
4. Learning from **other parts of the world**
5. Discussions on **lessons and major challenges** for the need for sharing knowledge and practical experiences
6. Group work: Recommendations for **mechanisms, commitments, responsibilities** for knowledge exchange and learning
7. Concretizing **the way forward**
8. Evaluation and closing

Let us share through Introductions

Talk to your neighbor about your experience
in TWRM in your project

Mention one or two things you would like to
share with your neighbour

She / he may remember you for that...
