

**GEF
COASTAL FISHERIES
INITIATIVE (CFI)**

Prepared by Jackie Alder, FAO

May 2016, WCB, Sri Lanka

- Concerned with all fisheries in coastal areas – small-scale, large-scale, artisanal, commercial, industrial...
- Concerned with the whole fisheries value chain
- Building on 6 developing countries
- Building on, and adding value to, existing initiatives

Overall objective: To demonstrate holistic ecosystem-based management and improved governance of coastal fisheries,

Environmental : To support responsible coastal fisheries and the maintenance of ecosystem services through implementation of more holistic and better harmonised approaches.

Developmental : To increase the economic and social value generated by coastal fisheries to support human well-being and livelihoods.

OBJECTIVES OF THE CFI

CFI Components

- 5 projects
- 6 GEF agencies
- 6 countries

Global Challenge Fund GCF financing: \$ 1.250.000 GCF projects: 1000000 GCF partners: 1000000	World Bank Partnership GCF financing: \$ 100.000 GCF projects: 100000 GCF partners: 100000
Indonesia GCF financing: \$ 1.250.000 GCF projects: 1000000 GCF partners: 1000000	China, India, Chile, Ghana & Kenya GCF financing: \$ 100.000 GCF projects: 100000 GCF partners: 100000
Executive & Peer GCF financing: \$ 100.000 GCF projects: 100000 GCF partners: 100000	

- ▶ Combining different approaches to address fisheries issues
- ▶ Different approaches in different regions
- ▶ Knowledge sharing key feature ~ 30% budget
- ▶ New for GEF and not aligned to the LME model

CR1 – DIFFERENT?

- ▶ Sustainability incentives in the value chain
- ▶ Institutional structures and processes
- ▶ Sharing best practices, collaboration and performance assessment

COMMON THEMES
