**What is the approach in a nutshell?
How does it work?**

What is your advice to coastal and marine projects and partners interested in pursuing this approach?

Discussion Questions to Audience:

What **experience** in innovative financing do you have that you would like to share with everyone?

What **tools and resources** would you recommend?

Hearing about these financial innovations – impact investors, debt-for-nature, blue bonds & the Green Climate Fund – how **applicable** do you see these financial innovations to your projects and initiatives?
