

# Governance: Contribution of Spatial Management Tools for Marine Resource Management

Session Chairs: Lauren Wenzel,  
Harry Coccossis

Session:4

Day of presentation: 7 December 2016

# Session Objectives

- Understand challenges and opportunities in implementing spatial management tools in LMEs
- Provide input to development of LME Governance Toolkit

# Session Agenda

## • Lightning Presentations

- Ivica Trumbic, UNESCO-IOC – Marine Spatial Planning in the Gulf of Aqaba, Jordan
- Joanna Alfaro, Marine Spatial Planning in the Humboldt Current LME
- Birane Sambe, Public Participation in MPA Management in Canary Current LME
- Chris Paterson, South China Sea Fisheries Refugia
- Graham Strickler, Private Sector Engagement, Beyond 180

## • Discussion

- What are the particular governance challenges in LME transboundary context?
- What are key elements of success in applying spatial tools?
- What governance-related tools, resources, data and expertise does the LME community need?
- Are there specific tools or examples to highlight in the Toolkit?
